

Brazos Basin TMDL Program Projects

COMPLETED TMDLS AND IMPLEMENTATION PLANS

- Three TMDLs for Indicator Bacteria in the Carters Creek Watershed

Segments 1209C, 1209D, 1209L

- Two TMDLs for Phosphorus in the North Bosque River

Segments 1226 and 1255

- One TMDL for Bacteria in Upper Oyster Creek

Segment 1245

- Two TMDLs for Dissolved Oxygen in Upper Oyster Creek

Segment 1245

- One TMDL for Atrazine in Aquila Reservoir

Segment 1254

COMPLETED TMDLS AND IMPLEMENTATION PLANS

Carters Creek Watershed Bacteria TMDL & I-Plan

- TMDL & I-Plan completed 8/22/12
- I-Plan activities underway
- An I-Plan meeting will be on 5/23/14

North Bosque River Phosphorus TMDL & I-Plan

- TMDL completed 2/9/10
- I-Plan completed 12/13/02
- I-Plan activities and monitoring underway
- 4 of 5 TMDL index locations are meeting target

COMPLETED TMDLS AND IMPLEMENTATION PLANS

Upper Oyster Creek Bacteria Dissolved Oxygen TMDL & I-Plan

- Bacteria TMDL completed 8/8/07 -- DO TMDL completed 7/28/10
- I-Plan completed 1/15/14
- Kickoff meeting just completed
- I-Plan activities underway

Aquila Reservoir Atrazine TMDL & I-Plan

- TMDL completed 6/14/02
- I-Plan completed 1/18/02
- I-Plan activities successful – Target met

Navasota River Watershed Project

Watershed for Segment 1209

- Begin September 2014 – Multiyear Project
- Contractor - Texas Water Resources Institute, College Station
- Address 12 Contact Recreation Use Impairments on the 2012 Texas Integrated Report
 - Navasota River below Lake Limestone
 - Navasota River above Lake Mexia
 - Wickson Creek
