

Brazos River Authority

## Watershed Protection Plans

---

---

---

---

---

---

---

---

### What is a WPP?

- Locally-driven projects
- Restore impaired, polluted waterbodies through community driven efforts
- Tool to leverage resources of federal, state and local governments

---

---

---

---

---

---

---

---

### Lake Granbury WPP

- Funded by CWA§319 NPS grant from TCEQ and EPA
- Addressing elevated bacteria levels in the man-made coves
- In the data gathering process
  - Additional field sampling
  - Land-use Analysis
  - WQ Modeling
  - Bacterial Source Tracking
- Estimated completion August 2010

---

---

---

---

---

---

---

---

### San Gabriel WPP

- Funded by CWA§319 NPS grant from TSSWCB and EPA
- Addressing elevated sediment levels in the river and Lake Granger
- Estimated completion April 2009

---

---

---

---

---

---

---

---

### Leon River WPP

- Funded by CWA§319 NPS grant from TSSWCB and EPA
- Addressing nutrient and bacteria loading in the Leon River watershed
- Estimated completion August 2009
