These reports were compiled using information provided by the Brazos River Authority. No procedures were performed to test the accuracy or completeness of this information. The market values included in these reports were obtained by Valley View Consulting, L.L.C. from sources believed to be accurate and represent proprietary valuation. Due to market fluctuations these levels are not necessarily reflective of current liquidation values. Yield calculations are not determined using standard performance formulas, are not representative of total return yields and do not account for investment advisor fees.

Strategy Summary:

The Federal Open Market Committee (FOMC) maintained the Fed Funds target range between 0.00% and 0.25% (actual Fed Funds are trading +/-15bps). The European credit crisis continues to linger without permanent resolution - several key components converge later this fall. Chinese growth trends are lower and worrisome. Domestic employment growth is modest and inconsistent. Overall economic activity is below expectations. The US stock market remains a bright spot. Financial institution deposits and laddering targeted cash flows still provide the best interest earnings opportunity.
