RE: Application for 2026 Interruptible Water

Dear «Salutation»:

The purpose of this notice is to advise potential Interruptible Water customers of the application process for 2026 Interruptible Water. You are receiving this letter because you have contracted with the Brazos River Authority (BRA) for an Interruptible Water Availability Agreement(s) (IWAA) within the last five years or hold a current long-term contract.

An application form is attached. The application form must be completed, signed, and received by the BRA at our Waco office by 5:00 p.m. on Tuesday, September 30, 2025, along with the required application fee and deposit, if applicable. If the BRA has not received your completed application, application fee, and deposit (deposit only required for requests of 500 acre-feet or more) by the close of business on September 30th, you will not be considered for Interruptible Water in 2026 unless unsold water remains after all requests received by the deadline have been satisfied. Here are a few things to remember considering the current Interruptible Water Sale Procedure:

- All new IWAAs will be for a term of one year from January 1 to December 31, 2026.
- The application deadline is established by the BRA each calendar year. For this year, the application deadline is September 30th.
- Adjustments to the amount requested in the application form will not be authorized after the September 30th deadline.
- The BRA Board of Directors will consider the amount of Interruptible Water to be made available in 2026 at the November 17, 2025, Board Meeting.
- The Interruptible Water Sale Procedure allows the BRA Board of Directors to adjust the amount of Interruptible Water to be made available considering drought conditions or other relevant factors that exist at that time.

- If the total of all customer requests exceeds the amount of Interruptible Water available for sale in 2026, your request may be subject to proration. You will have the option of accepting the prorated amount of Interruptible Water or canceling your request.
- If Interruptible Water is made available, the BRA expects to mail new 2026 IWAA's and requests for payment following the November 17th Board Meeting.
