TOTAL	7,679

Brazos River Authority 2015 Reservoir Accounting (acre-feet)

* Leakage has not been quantified by the US Army Corp of Engineers for Lakes Georgetown, Granger and Proctor.
**12,500 acre-feet of the 21,891 acre-feet of water released for water supply from Lake Belton was for the City of Temple under its own water right. Therefore, this 12,500 acre-feet is not reflected in BRA's water use total for 2015.
**39,888 acre-feet of water used under NRG's BRA contract was pumped at their downstream pumping point near the City of Richmond under the BRA's Excess Flows permit.
Since water pumped under the Excess Flows permit is run-of-river water and not released from any of the BRA system reservoirs, it is not reflected in this reservoir accounting.
NOTE: [Lakeside Water use (180,343 acre-feet) + Water Supply Release (26,761 acre-feet) + Undedicated Release used for Water Supply (8,229 acre-feet) - Temple Water Right (12,500 acre-feet) + Excess Flows (39,888 acre-feet)] = Total 2015 BRA Water Use (242,721 acre-feet)

Data source: Brazos River Authority
Note: This graphic was updated on March 16, 2017, to correct the allocation of water used by interruptible and firm water customers associated with the West Central Brazos Pipeline. The total volume of water used did not change. All other information remains unchanged.
