

Mr. Glen Grandy President 439 Water Supply Corporation 6202 Sparta Road Belton, Texas 76513

Re: Implementation of Stage 2 – Drought Warning for Lake Belton

Dear Mr. Grandy:

The Brazos River Authority (BRA) informed you by letter of the Stage 1 – Drought Watch declaration for Lake Belton on March 17, 2022. The BRA also informed you by letter of the declaration of a Stage 1 – Drought Watch for its system of 11 reservoirs as a whole on August 11, 2022. Drought conditions have continued, and the level of Lake Belton dropped below the Stage 2 – Drought Warning trigger of 578.7 ft-msl on July 31, 2023. As such, the BRA is implementing a Stage 2 – Drought Warning condition for Lake Belton.

The stated goal of a Stage 2 – Drought Warning in the BRA Drought Contingency Plan (Plan) is a ten percent (10%) reduction in water use that would have occurred in the absence of any drought contingency measures. We ask that you take action consistent with Stage 2 of the BRA Plan to achieve a ten percent (10%) reduction in water use.

Additional information on the implementation of the Stage 2 – Drought Warning condition can be found on pages 6, 10, and 11 of the BRA Plan, which is available on our website at https://www.brazos.org under About Us – Water Supply – Drought – Drought Contingency Plan. Current drought information is also located on the website at http://www.brazos.org/About-Us/Water-Supply/Drought.

The BRA is monitoring water supply and drought conditions within the basin and will notify you when changes under the Plan are made or additional action is required.

If you have questions, please contact Amy Muttoni, Regional Government and Customer Relations Manager for the Central Basin, at (254) 761-3165.

Sincerely,

DAVID COLLINSWORTH General Manager/CEO

Mr. Ricky Garrett General Manager Bell County WCID #1 201 S. 38th Street Killeen, Texas 76543

Re: Implementation of Stage 2 – Drought Warning for Lake Belton

Dear Mr. Garrett:

The Brazos River Authority (BRA) informed you by letter of the Stage 1 – Drought Watch declaration for Lake Belton on March 17, 2022. The BRA also informed you by letter of the declaration of a Stage 1 – Drought Watch for its system of 11 reservoirs as a whole on August 11, 2022. Drought conditions have continued, and the level of Lake Belton dropped below the Stage 2 – Drought Warning trigger of 578.7 ft-msl on July 31, 2023. As such, the BRA is implementing a Stage 2 – Drought Warning condition for Lake Belton.
