Re: Termination of the Stage 2 – Drought Warning Declaration for the Stillhouse Hollow  
– Lake Georgetown Sub-system

Dear Mr. Garrett:

In accordance with its Drought Contingency Plan (Plan), the Brazos River Authority (BRA) informed you by letter of the declaration of the Stage 2 – Drought Warning for the Stillhouse-Georgetown (SH-GT) Sub-system on August 4, 2023. Due to recent rainfall, the combined storage of the SH-GT Sub-system has risen above both the Stage 2 and the Stage 1 combined storage trigger. We anticipate that the combined storage of the SH-GT Sub-system will remain above the Stage 1 trigger level for an extended period.

**As such, the BRA is terminating all drought warning declarations for the SH-GT Sub-system.** If drought conditions re-emerge later this year, we will coordinate with you as necessary under the Plan.

The Plan is available on our website at <https://www.brazos.org> under About Us – Water Supply – Drought – Drought Contingency Plan. Current drought information is also located on the website at <http://www.brazos.org/About-Us/Water-Supply/Drought>.
